

## Giving Little Feet a Lift Arch Angels & ComfortFit Orthotic Labs

**Arch Angels™**  
boxed pair

### Don't Forget about your Smallest Patients

Arch Angels comfort shoe insoles are designed specifically to address the special needs of a child's growing feet. By utilizing a progressive arch design system, Arch Angels support the natural development of a child's foot. Inspired by a Mom and developed by two podiatrists, Arch Angels provides the support even the best shoes can't offer. Arch Angels uses a unique triple-layer design. For comfort, the outer foam layers offer superior cushioning, while the inner core provides gentle support for the developing arch. These insoles are constructed of non-toxic materials, are hand washable (BIG plus for Moms) and are designed to last through two shoe sizes (ANOTHER BIG PLUS).

A child's feet have to last them a lifetime, help protect them in the beginning.
